

HMP102 Heavyweight Maintenance Absorbent Pads

Product Description

Style: Pads

Item Size (each): 15" x 18"

Colour: Gray

Composition: 100% Polypropylene

Structure: 3-ply composition, fine fiber outer layers on a straight meltblown center

Technology: Meltblown

Absorbency: Universal (Hydrophilic)

Bonding: Thermal bonded

Intended Application: Universal (Hydrophilic) absorbent

Packaging Description:

Packaging Configuration: bale

Items Per Package: 100 Pads/bale

Container Type: box

Package Weight: 11.5 lbs

Package Dimensions: 16" x 19" x 17"

Physical Properties:

Parameter	Units	Nominal	(+/-) Tolerance
Basis Weight	LBS	11.5	2
Absorbency** (med Oil)GAL	25.2	7	
3" Tensile Strength	LBS	17	3

The above properties are “nominal” values used for process control when the product is produced and/or inspected. Performance “nominals” may vary depending upon the specific application, and/or environment being applied, stored, or shipped.

Attributes: Product will be free of foreign material contamination, rips, holes and tears.

Certification: Make no changes in basic process or composition without notifying customer.
